FAMILY TRAINING SERIES

CREATING A CULTURALLY SENSITIVE FAMILY PLAYROOM

Participants will explore the importance of cultural sensitivity and awareness within a therapeutic space when utilizing play and selecting appropriate materials. They will learn how to support therapeutic providers in navigating their space and increase awareness of modifications and additions to support a wider range of clients seeking care. Facilitator will provide foundational awareness of play materials and the importance of toy selection.

OBJECTIVES

- 1- Develop competence in setting up a Child Centered focused play space. Identify and label understanding of materials, layout, and adaptability.
 - 2- Identify items to be included to ensure cultural sensitivity, diverse family systems, and inclusion. Explore phases of creating a playroom in an established space.
- Recommend behavioral tools for fostering a more inclusive culturally sensitive environment in play therapy.

AGENDA

- 9-10- lecture objective 1
- 10:00-11:00 lecture objective 2
- 11:00-11:45 lecture objective 3
